FIXED ASSETS MANAGEMENT

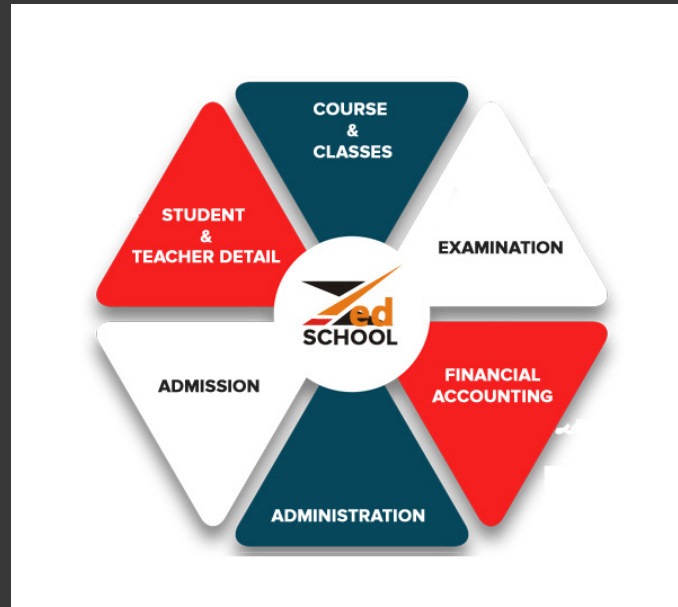

HR MANAGEMENT & PAYROLL

BIOMETRIC / RFID AUTOMATED ATTENDANCE

SCHOOL MANAGEMENT SYSTEM

An integrated Enterprise Resource Planning software with powerful School Management specific features.

Different schools and colleges have different procedures and processes. It is made user friendly to customize according to the need.

SCHOOL MANAGEMENT ADD-ONS

This is a web based system and can be connected from anywhere through your web browser using Internet, therefore provides an interactive portal for Teacher, Students, Parents & School Administration in conjunction with School website.

This system provides a Standard Double entry

Accounting system to manage day to day school financial Transactions which includes Fee Vouching, Receipts, Cash/Bank Payments and Journal Vouching. This leads to powerful standard General Ledger, A/C Receivables and Payables based on 100% user defined Chart of Account.

SCHOOL SYSTEM HAS ALL THE FEATURES THAT ARE NEEDED TO RUN SCHOOL

- ✓ Define employees & suppliers to build payables
- ✓ Students transaction histories and aging
- ✓ Define sessions, classes & subjects
- ✓ Assign faculty to classes
- ✓ Define exams
- ✓ Student registration & profiling
- ✓ Grade non curricular activity performance
- ✓ Class fee vouching
- ✓ Aptitudes / activities
- ✓ Attitudes
- ✓ Management dashboards
- ✓ Build kids assessment criteria
- ✓ Scholastic areas
- ✓ Grade defined criteria in each term
- ✓ Define fee structures and associate with student
- ✓ Define terms
- ✓ Reports to parents
- ✓ Teacher, parent, administration logins

BIOMETRIC TIME ATTENDANCE SOLUTION

- ✓ Employee attendance / payroll accounting in offices, factories & hospitals
- ✓ Students and teachers attendance/payroll in schools and universities

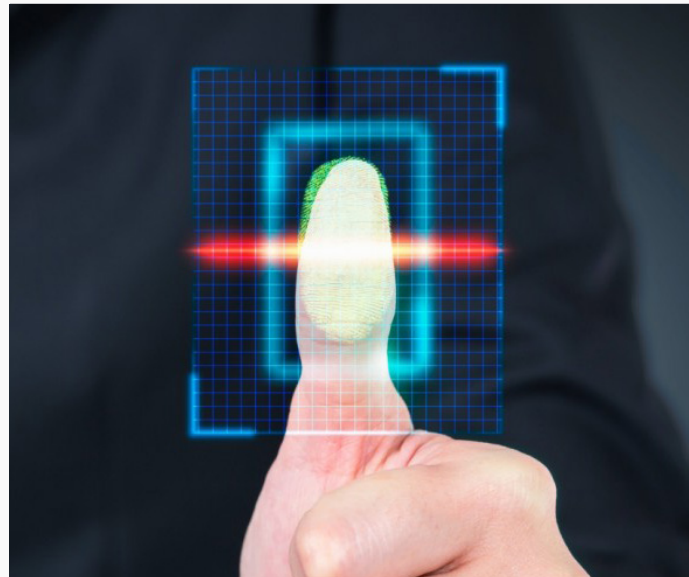

BIOMETRIC TIME ATTENDANCE SOLUTION

FEATURES:

- ✓ Tracking of accruals such as absentism, late coming, early going, leaves and over time
- ✓ Shift management
- ✓ Holiday calendar
- ✓ Multi-location & multi-department
- ✓ Flexible and powerful reporting capabilities
- ✓ Desktop application at gates with client server technology
- ✓ Web based centralized system
- ✓ Integration with ZedERP Accounts payable & GL

BENEFITS:

- ✓ Reduce the time required to schedule employees
- ✓ Do away with timecard preparation, collection, filing and storage

- | | |
|---|--|
| ✓ Be more productive, efficient and profitable | ✓ Improves employee productivity |
| ✓ Restrict unnecessary overtime and other expectations | ✓ Restrict unnecessary overtime and other expectations |
| ✓ Assign resources more efficiently and reduce the time needed to schedule employees | ✓ Eliminate unauthorized hours |
| ✓ Altogether eliminate the need to calculate time cards | ✓ Eliminate the need to calculate vacation, sick or compensation time accruals |
| ✓ Significantly cut down on payroll processing time integrating with GL Loan and advances A/C and accounts payables | ✓ Identify and eliminate time abuses (break, meal, buddy punching, etc) |

FIXED ASSETS MANAGEMENT SOFTWARE

An exciting tool for recording, tagging, keeping & tracking of assets

FIXED ASSETS MANAGEMENT SOFTWARE

DEFINE:

- ✓ Assets classes
- ✓ Departments
- ✓ Cost centers
- ✓ Custodians
- ✓ Suppliers
- ✓ Locations

ACQUISITIONS

Create new assets, their detailed information, image, set depreciation method and allied financial information to calculate depreciation and net book value.

TRANSACTIONS

Asset disposal, revaluation, write-offs and transference from one cost center to the other. Auto financial vouching to book transaction into journal and ultimately post to the general ledger.

SERVICE LOGS

Services & maintenance record are created through this option.

DEPRECIATION SCHEDULES

Periodic depreciation schedules are viewed on the basis of cost centers, departments; asset type etc. and depreciation vouchers are generated.

ITEM DEPRECIATION CALCULATOR

This is a runtime query to view each item's periodic depreciation calculation over years. This option allows changing query parameters to see different patterns, which does not allow to post results into the journal.

ASSETS REGISTER

Each item's financial card to see date wise transactions like acquisition, additions, transfers, revaluation and write-offs

COST GROUP REPORTING

Cost groups are financial ledgers grouping criteria that may or may not be coincident with asset department. These cost groups has direct relation with the chart of account codes. Reporting can be drawn from this query to see what has to be charged into company COA

CHART OF ACCOUNTS

Chart of account has been provided with the system to see actual double entry effect into company GL that may or may not run on this software. This is kind of a utility for companies who do not run rest of the accounting on this software. Create same codes into the COA of this asset management module as they keep in their accounting system and compare them periodically to keep both aligned.

JOURNALS

Double entry financial transaction history posted into cost centers, COA and trial

TRIAL BALANCE

Trial balance is the bi-product of embedded GL, a great utility to quickly compare results of accounting system and asset management module, if run parallel.

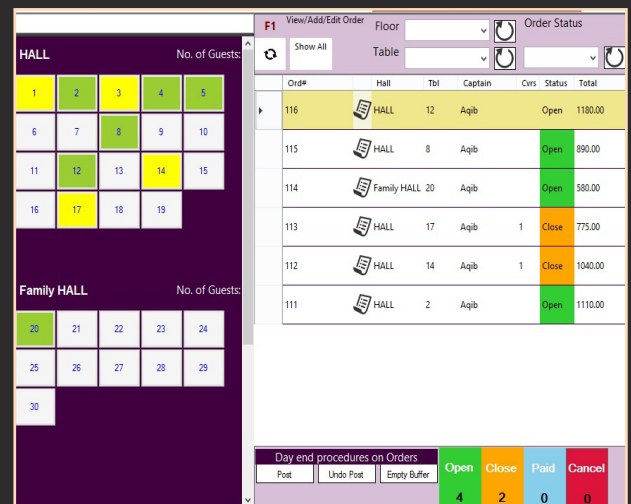

RESTAURANT POS

- ✓ Dine in, takeaway & delivery
- ✓ Manage halls & table
- ✓ Enroll waiters/servers
- ✓ Place order at front desk and print in kitchen
- ✓ Create kitchen order tickets through hand-held devices and directly send to kitchen
- ✓ Manage your cash through POS cash drawer
- ✓ Manage food service through kitchen order tickets

RESTAURANT POS (IN BILINGUAL LANGUAGE)

We are proudly offering restaurant POS hardware with installed bilingual software that can be easily configured in European language. Can be used in any sort of food service establishment, from fine dining and table service restaurants to quick service (QSRs), pizza delivery and take-out establishments.

HARDWARE

- ✓ Uni POS touch screen with atom processor – different models & sizes
- ✓ Uni POS cash drawer
- ✓ Epson receipt printers of different models

SOFTWARE

- ✓ Customizable halls and table arrangements
- ✓ Dine IN/takeaway / delivery options
- ✓ Definable multiple kitchens and smart KOT printing into related kitchens
- ✓ Bilingual interface and printing, customizable in European language
- ✓ Multiple POS and cash closing shifts
- ✓ Pictorial menus and categories
- ✓ Order status with color distinctions
- ✓ Customer tracking in delivery mechanism

Let us tell you more about the amazing things we do.
